1. Test Case: Create Listing

Test Case ID	TC-BASHAMATE-CL-01
Test Scenario	Verify that a landlord can successfully create and publish a new property listing with valid information.
Preconditions	1. Landlord account is registered and logged in to BashaMate. 2. Landlord is authorized to create a listing. 3. Required property information is available.
Test Steps	1. Navigate to the listing management section. 2. Select the option to create a new listing. 3. Enter the property title, description, location, rent, and other required details. 4. Submit the listing.
Input Data	Title: 2 Bedroom Apartment Description: Fully furnished apartment Location: Mirpur, Dhaka Rent: 20,000 BDT Availability: Available
Expected Result	System successfully creates the listing and publishes it with the entered property information. The new listing becomes visible to students.
Actual Result	(To be completed during test execution)
Status	(Pass / Fail)
Remarks	Verifies the `createListing()` function of the Landlord class using valid input data.

2. Test Case: Contact to Landlord

Test Case ID	TC-BASHAMATE-CL-02
Test Scenario	Verify that a student can successfully contact the landlord of an available property listing.
Preconditions	1. Student account is active and logged in to BashaMate. 2. At least one property listing is available. 3. The selected listing has a registered landlord.
Test Steps	1. Navigate to the available listings. 2. Select a property listing. 3. Select the Contact Landlord option. 4. Enter a message. 5. Send the message.
Input Data	Selected Listing: 2 Bedroom Apartment Landlord: Registered landlord Message: “I am interested in this apartment. Is it still available?”
Expected Result	System successfully sends the message to the landlord and creates a conversation between the student and landlord.
Actual Result	(To be completed during test execution)
Status	(Pass / Fail)
Remarks	Verifies the `contactLandlord()` function of the student class.

3. Test Case: Mark as Available

Test Case ID	TC-BASHAMATE-MAA-01
Test Scenario	Verify that a landlord can mark an existing property listing as available.
Preconditions	1. Landlord account is registered and logged in to BashaMate. 2. The landlord has an existing property listing. 3. The selected listing is currently unavailable.
Test Steps	1. Navigate to the landlord's listing management section. 2. Select an existing unavailable listing. 3. Select the Mark as Available option. 4. Confirm the availability status.
Input Data	Listing: 2 Bedroom Apartment Current Availability: Unavailable New Availability Status: Available
Expected Result	System changes the listing status from Unavailable to Available. The listing becomes available for students to view and contact the landlord.
Actual Result	(To be completed during test execution)
Status	(Pass / Fail)
Remarks	Verifies the `markAsAvailable()` function of the Listing class.
